Art
with Mrs. Pietrasik

February 2020
Lincoln-Thomson Elementary

**Kindergarten** – We just finished up a unit on different types of lines! Next we will be focusing on the different styles of making art and have started a big collage project.

**Grade 1** – We just completed a painting project which reviewed the primary colors and how they are mixed to create the secondary! Next we will be reading the book “Snowflake Bentley” and will create our own unique snowflakes.

**Grade 2** – We are working on a large zentangle unit. Students are creating their own zentangle designs using a variety of lines and shapes. We have been listening to calming music and are trying to feel “zen” while creating our art. Next we will be adding watercolor colored pencils to our designs.

**Grade 3** – We are learning all about organic shapes, as well as the art and life of artist Georgia O’Keeffe. We are creating our own organic artwork by drawing with glue, and adding color with oil pastels.

**Grade 4** – We have been working on a large unit on color value. We have learned how to mix our own tints and shades to create a monochromatic painting. For the end of our unit will be creating a painting of a winter night sky.

**Grade 5** – We are learning all about the artist Wassily Kandinsky and his abstract paintings! We just finished up a music inspired oil pastel drawing and are now starting a painting full of abstract shapes and lines!
