Let the games begin! Marine Science working and Adaptation!

This week students in honors marine biology created "adaptations game cards" where each card had one special adaption. Students then play the game of Adaptation War.

Synching Grades From Schoology to Power School

Subject: Schoology to PS

To sync grades from GradeBook in Schoology

1. Click PowerSchool in the left-hand column of Schoology.
2. Click Configuration
3. Configure the classes following the instructions.
4. Save Changes
5. Click Sync Grades
6. Click Sync Changes (status should change to Successful)

7. This might help if the grades are not syncing

1. Click here: https://lynnschools.powerschool.com/teachers/index.html#/classes/class/grade_calculations
2. Click the arrow (on the left) of any class
3. You will see reporting terms that are defaulted to Total Points
   a. To change M1 for example, click the pencil icon on the far right for M1
   b. A box pops up. Click the dropdown arrow (where it says Total Points) and select Category Weighting
   c. Choose the attributes (categories) that you previously configured in Schoology and then synced to Powerschool
      i. You can add new categories by clicking the plus sign
      ii. You can change the attributes with each dropdown box
   d. Type in the weight in the box
   e. When you're done, click save
4. Repeat that process for each reporting term - for each class

Good morning all,

After feedback from staff and the attendance team, we need to make a shift in how we take period attendance. We are going to move to PowerTeacherPro to do the period attendance. This should make it easier to see your students attendance in all of their periods each day to better inform if students are truly absent or they are cutting class. Ellen provided a few snipits so that that people can orient themselves to where to do this. Please let me know or contact your DH if you need assistance in moving over to PowerTeacherPro for Period Attendance.
CHS Community Message 9/30/2022

Good morning Classical Families,

I am reaching out to update you after meeting with Inspectonal Services yesterday regarding the construction around the building. At the end of the summer, we had a roof leak that affected one of our classrooms. When we surveyed the damage, we found some mold, so the city employed roofers, engineers, and mold specialists to ensure any mold is removed. We have moved that classroom to the school library which is set up with technology to support continued learning for students. Out of an abundance of caution, inspecational services are inspecting any areas that historically had involved water to ensure that if these areas have any mold that it will be removed. ISD and the construction companies are working in the evening daily to take care of this issue and they are using hospital grade air filtration in any areas that are open during that construction. Any areas that are occupied by staff and students during the day where work has happened will be enclosed so it is safe for occupancy. I also have to thank the staff and students for how flexible and gracious they have been around space and change. As always, we thank you for your patience as we work together to keep our community safe and healthy!
Thank you,
Amy Dunn

Roofers are on the last diagnostic step to be able to fix the roof and eliminate the leaking and start rebuilding damaged areas!
