WELLNESS POLICY FOR LYNN PUBLIC SCHOOLS
(Approved by School Committee 4/17/17)

PURPOSE AND GOALS

The Lynn Public Schools recognize that good nutrition and physical activity are essential for students to maximize their full academic, physical and mental potentials, and achieve lifelong health and well-being. A progressive and sequential approach to nutrition and physical activity promotes healthy weight maintenance and reduces the risk of many chronic diseases including hypertension, heart disease, Type 2 diabetes and asthma.

Lynn Public Schools have a responsibility to provide a school environment that helps students learn and maintain lifelong healthy eating and lifestyle habits. Many factors play a role in achieving a healthy school environment including the availability of healthy foods and beverages at school and positive modeling by adults, as well as opportunities to learn about healthy lifestyles through physical activity and nutrition education which follow the Massachusetts Health Curriculum Frameworks to promote student wellness.

The LPS Wellness Policy Committee is responsible for establishing and measuring the implementation of the Wellness Policy. Committee members work collaboratively and offer multiple perspectives to assure the Wellness Policy is consistent with LPS educational and budgetary goals, is designed to optimize the health and well-being of students, and fulfills the requirements of the 2004 Child Nutrition and Women Infants and Children (WIC) Reauthorization Act (Sec. 204 of P.L. 108-265) and Healthy, Hunger-Free Kids Act (Sec. 204 of P.L. 111-296)

POLICY

1.0 Wellness Policy Committee

1.1 Mission

The LPS maintains a Wellness Policy Committee that serves the following purposes:

- Establish standards for all foods and beverages available to students on each school campus during the entire school day.

- Establish standards for all food and beverages available to students on each school campus before- and after- the school day.

- Establish goals for student nutrition education, physical activity, and other school-based activities designed to promote student wellness.

- Provide oversight and serve as a resource to school sites for the District's Wellness Policy, as well as for individual Lynn schools’ wellness policies.
Establish a plan for monitoring, measuring, review and evaluating the District’s Wellness Policy as well as for individual Lynn schools’ wellness policies, standards and implementation, as

Recommend all policy-related standards for final approval and report findings of policy implementation evaluation annually to the School Committee.

1.2 Membership
The Wellness Policy Committee membership includes at a minimum:

- A school board member
- A representative from administrative leadership
- A representative of the Coordinated School Health Program
- A representative of school food services
- A School Nurse
- A Student representative
- A Parent representative
- A Representative of the local community

The Wellness Policy Committee chairperson has the primary responsibility for coordinating committee activities related to standards establishment, policy implementation and monitoring, and reporting to the School Committee.

The District's Wellness Policy will be distributed to all employees at the beginning of each school year. It can be viewed on the Lynn Public Schools' website (http://www.lynnschools.org/), on the local Cable Access Television (CAT) and in future informational resource materials.

1.3 Committee Meetings

In compliance with CMR 215.100:

- The Wellness Policy Committee shall meet at least four (4) times a year;
- Minutes and attendees shall be recorded at each meeting

1.4 Committee Responsibilities

The Wellness Policy Committee shall review Lynn’s Wellness Policy on an annual basis to recommend and review district policies to promote student wellness. The Wellness Policy Committee shall review the goals and objectives for the coming year, create a process for evaluating the progress made in the coming year in reaching annual goals and objectives, and any recommendations concerning the individual schools’ wellness programs.
The Committee shall provide to the superintendent and the school committee a copy of the policies, including goals and objectives for the coming year. The report shall include:

(a) an action plan which details ways in which the committee may work with the school district and school personnel, including school nurses, to achieve the annual goals and objectives on a school district and/or school building level;
(b) ways that the school district and/or committee might best monitor and evaluate progress toward reaching the annual goals and objectives;
(c) ways of developing community support for school wellness initiatives and coordinating school and community initiatives on physical activity and nutrition;
(d) an assessment of the accomplishments of the previous year and identification of work still needed in order to accomplish the previous year's goals and objectives;
(e) a review of membership and membership participation in the previous year and, as appropriate, a request to the Superintendent for replacements.

2.0 Nutrition Guidelines

2.1. School Meals Program

The school meals program will operate in accordance with the National School Lunch Program standards (7 CFR 210-249) and applicable laws and regulations of Massachusetts, including An Act Relative to School Nutrition (Chapter 197 of the Act of 2010, codified at M.G.L c. 7, s. 223). Schools will offer varied and nutritious food choices that are consistent with the federal government's current Dietary Guidelines for Americans.

Students will be encouraged to start each day with a healthy breakfast.

Parents and caregivers will be given educational resources and will be encouraged to support a healthy school environment by providing a variety of nutritious foods if meals or snacks are sent from the home.

Any foods and beverages marketed or promoted to students on the school campus during the school day will meet or exceed USDA Smart Snacks and Massachusetts Nutrition Standards for Competitive Foods and Beverages (105 CMR 225.000).

2.2 Competitive Foods

Each school will have the capability to access nutritional information for parents and guardians for a la carte snacks and beverages offered in snack bars, meal service lines, vending machines and school stores.

Beverages and foods sold in the Lynn Public schools during the school day must adhere to the following standards:

All a la carte snacks and beverages offered for sale to students must comply with USDA
regulations prohibiting the sale of “foods of minimal nutritional value.” (Federal Register, 7 CFR Part 210.11).

Only the John Stalker Institute “A-List” of food items by manufacturer and product will be “acceptable” food items for student’s consumption. This list will be updated regularly and become part of the district policy.

Vending machines will not be available to students between 7AM and 2:30PM. Timers will be set on all machines. This will be strictly enforced.

Upon expiration of existing vending contracts, the Wellness Committee will reconvene to propose additional guidelines.

2.3 Eating as a Positive Experience

Schools will work towards providing adequate time to eat, at least 10 minutes for breakfast and 15 minutes for lunch from the time the student is seated.

Whenever possible, lunch will be scheduled near the middle of the school day. Lunch recess for elementary grades will be scheduled before eating lunch.

Schools will work towards improving serving space. Efficient methods of service will be used to ensure student have access to school meals with a minimum amount of waiting time.

Seating will be available to accommodate all students served during each meal period. Supervision will be provided in the dining area. The dining area will be clean and orderly.

Free potable water must be made available for all students throughout the day at no cost.

2.4 Food Safety

In accordance with Section 111 of the Child Nutrition and WIC Reauthorization Act of 2004 (Public Law 108-265), the district will implement a food safety program for the preparation and service of school meals based upon the Hazard Analysis and Critical Control Point (HACCP) principles.

All food service equipment and facilities will meet applicable local and state standards for safe food preparation and handling, sanitation, and workplace safety.

Access to hand washing or hand sanitizing will be available before meals for the students.

Cafeteria and classroom modifications will be made for students with food allergies according to the Lynn Public Schools Allergy Guidelines.

3.0 Nutrition Education
The District Wellness Policy committee will work with the Director of Coordinated School Health Programs to assess all nutrition education curricula and materials for consistency with the Lynn Public Schools educational and wellness policy goals and the Massachusetts Health Curriculum Frameworks

3.1 Student Nutrition Education

Students will have the opportunity to participate in a variety of classroom nutrition education learning experiences that meet the Massachusetts Health Curriculum Frameworks.

3.2 Staff Nutrition Education

Staff will be encouraged to be positive role models and be committed to help improve school nutrition.

The staff responsible for nutrition education will be adequately prepared and participate regularly in professional development activities to effectively deliver an accurate nutrition education program.

Preparation and professional development activities will provide basic knowledge of nutrition, skill practice in program-specific activities and instructional techniques, and strategies designed to promote healthy eating habits.

3.3 Parent Nutrition Education

The nutrition education program will engage families as partners in their children’s education.

Nutrition education may be provided to parents in the form of handouts, website postings, school or district newsletters, and nutrition presentations.

3.4 Cafeteria

The school cafeteria will: a) support school nutrition education by posting attractive and current nutrition education materials in dining areas b) serve as a venue for nutrition education offered by teachers and community nutrition educators.

4.0 Physical Activity/Education

4.1 Physical Education

Physical Education shall be taught as a required subject in grades K-10 and offered to grades 11-12 in the public schools for the purpose of promoting the physical well-being of students.

Physical education classes should be taught by state certified teachers in an environment where students learn, practice and are assessed on developmentally appropriate motor skills, social
skills and knowledge in accordance with the MA Health Curriculum Frameworks.

Physical education will include the instruction of individual activities, fitness, team activities and dance to encourage life-long physical activity.

4.2 Physical Activity during the School Day

Students will be given opportunities for physical activity during the school day through daily recess periods, physical education (P.E.) classes, walking programs, and the integration of physical activity into the academic curriculum.

Schools will promote an environment supportive of physical activity through at least 15 minutes a day of recess for students in grades K-5.

Each elementary physical education teacher will teach a recreational unit that provides students with skills and knowledge to organize activities at recess.

Schools will encourage periodic breaks, at least every 30 minutes, in which students are encouraged to stand, stretch and be active.

All students should not have time periods of more than 2 hours of inactivity.

4.3 Physical Activity Before and After School

Students will be given opportunities for physical activity through a range of after-school programs including intramural and physical activity clubs by SY 2008-2009.

Interscholastic programs will be offered at the high school and middle school level.

After school tutoring/mentoring programs should also encourage physical activity.

4.4 Creating a Positive Environment for Physical Activity

Teachers and staff will not use physical activity (e.g. running laps, pushups) as a form of punishment.

Opportunities for physical activity (e.g. recess, physical education) will not be withheld as a form of discipline.

These guidelines do not apply to extracurricular sports teams, clubs or intramural activities.

Recess will not be cancelled for instructional make-up time.

All schools in the district will provide a physical and social environment that encourages safe and enjoyable activity for all students, including those who are not athletically inclined. Schools
should ensure that students are accepting of individual differences.

Information will be provided to families to help them incorporate physical activity into their children’s lives.

5.0 Other School Based Activities to Promote Student Wellness during the School Day

5.1 Food Sold for Fundraising Activities/ School Stores

Only the John Stalker Institute “A-List” of food items by manufacturer and product will be “acceptable” food items for student's consumption. This list will be updated regularly and become part of the district policy.

Traditional baked sales will not occur during the school day for the following reasons: 
• Student allergies
• Bake sales take students “off task”
• Food safety issues
• Violates competitive food law
• Puts pressure on low-income families

Bake sales may be offered after school has ended.

The district will encourage non-food items to be sold as part of school-sponsored fundraising activities. See Addendum for non-food item ideas.

5.2 Healthy Classroom Parties and Celebrations

School staff and parents are encouraged to provide non-food items for parties and celebrations. (See Addendum for non-food item ideas) If food is provided, school staff and parents are encouraged to include healthy food offerings at school parties and events to support a healthy environment throughout the district. Suggestions include fruits and vegetables, low fat foods, whole grains and foods on the John Stalker Institute “A-List”.

5.3 Food Used as a Reward or Punishment

School staff will not use food as a reward for academic performance or punishment for students.

Exceptions to this rule are only made if written into students IEP or 504 plan.

6.0 District Faculty, Staff and Food Service Staff Role in a Healthy School Environment

6.1 Staff Wellness
Food service staff and faculty will work together as full partners in the district's wellness goals. In support of this goal, nutrition and physical activity educational opportunities will be provided to all staff. These opportunities will address diverse topics related to healthy lifestyles, nutrition and physical activity. Educational and informational materials, presentations and/or workshops will be provided.

Faculty and staff are encouraged to model healthy eating and physical activity behaviors.

7.0 Policy Implementation

7.1 Monitoring

Each School Improvement Council will facilitate implementation and ensure compliance with the standards of the Wellness Policy. Each school principal will appoint one individual to monitor their individual school health and wellness environment. This person will report on compliance with the policy to the chairperson of the Wellness Policy.

The District Wellness Committee will aid the School Improvement Council in each school to incorporate the changes into their school improvement plan.

The Director of Food Services will ensure compliance with nutrition policies within the school food service areas and will report on this matter to the chairperson of the Wellness Policy committee.

7.2 Reporting

The chairperson of the Wellness Policy committee will report on the district's compliance with the Wellness Policy to the School Committee.

7.3 Policy Review /Evaluation

The Wellness Policy committee conducted a baseline assessment of the schools’ existing nutrition and physical activity environments. The results of the school-by-school assessments were compiled at the district level to identify and prioritize needs.

Assessments will be repeated yearly to help review policy compliance, assess progress, and determine areas of improvement. The Wellness Committee will revise the Wellness Policy, as needed and develop work plans to facilitate its implementation.

Every two years the Coordinated School Health Program will conduct a Lynn Youth Risk Behavior Survey and analyze outcomes in nutrition and physical activity at grades 5-12.
