Principal

1. The recently signed Student Opportunity Act will provide significant financial support to school districts like ours. Given what you know about our school, in what ways are you hopeful additional funding will move the school forward?
2. Given the district core values (Inclusiveness, Collaborative Relationships, High Expectations, Shared Responsibility, and Inspiring Life Long Learning), how do you think additional funding should support the enactment of those values in our school?
3. Given the priorities identified in our School Improvement Plan, what do you think the school needs to get closer to addressing those priorities?
